Order Instituting Rulemaking to Identify Disadvantaged Communities in the San Joaquin Valley and Analyze Economically Feasible Options to Increase Access to Affordable Energy in those Disadvantaged Communities.

R.15-03-010
(Filed March 26, 2015)

**OVERLAY MAP OF DISADVANTAGED COMMUNITIES
AND INVESTOR OWNED UTILITIES' JURISDICTIONS IN
SAN JOAQUIN VALLEY**

On September 8, 2016, Administrative Law Judge McKinney (ALJ) ruled by email that an updated map with overlay of Investor Owned Utilities' (IOU) service territories over the San Joaquin area (Overlay Map) be served and filed by September 12, 2016. On September 9, the Office of Ratepayer Advocates (ORA) requested and the ALJ granted an extension of the due date for filing and service of the Overlay Map to September 16th.

Pursuant to the ALJ's instructions, the link at the bottom of this pleading provides access to the instructed Overlay Map.

The map includes seven layers comprising the 170 identified cities, the San Joaquin Valley counties, and the gas and electric territories of PG&E, SCG, and SCE. Due to a technical error in the original CEC dataset, the layer showing PG&E's electric service territory can make the Overlay Map slightly difficult to read when enabled; however, this layer is accurate in its geographic area and can be easily disabled to view other map data and properties.
